DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: pg.1, line 9 appears to be missing some text at the end of the line.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Gardner (U.S. 2,594,906). Gardner discloses the invention as claimed. Gardner teaches a cap blank as shown in Figures 7 and 8, comprising a body including first and second sides, and a brim 16, each of the first and second sides 17a,18a having a free end, and a substantially planar crown 21 having a free end 26, wherein the free ends of the first and second sides are joinable adjacent to the free end of the crown. The crown is in a folded state after the first and second sides are joined to the crown.

Conclusion

4. The prior art made of record on the attached PTO-892, and not relied upon, is considered pertinent to applicant's disclosure.
